Summary

Highly skilled and results-driven software engineer with expertise in React, .NET, C#, MySQL Server js, CSS and tailwind CSS. With a passion for creating innovative and user-centric solutions, I excel at designing and developing robust applications that meet the highest quality standards. I collaborated with cross-functional teams to gather requirements, define project scope, and deliver solutions within strict timelines. Implemented efficient data modelling techniques in MySQL Server, ensuring optimal performance and scalability for data-intensive applications.

I am passionate about leveraging technology to solve complex problems, I thrive in dynamic and challenging environments. If you seek a software engineer with expertise in React, .NET, C#, and MySQL Server, let's connect and explore opportunities to create innovative solutions together.
